

# Basic Detail Report

---

00055270

Title  
Seu Mullet

Date  
2018

Primary Maker  
Jimmy Kenny Thaiday

**Medium**  
Ghost net (reclaimed fishing net and rope), polypropylene, rope and twine, plastic trellis

**Dimensions**  
Overall: 330 × 500 × 1600 mm, 1260 g

**Name**  
Sculpture

**History**  
"Seu mullets are bigger than normal sized mullet here on Erub . These mullets can only be caught at Seu, which is a sand cay situated off Erub. These mullets were hunted by our forefathers during Ōmes when they only had canoes and sails right up until our current generation with outboard motors. The Seu mullet is a prized fish to be speared by a hand held spear. During a specific time when the enau (wongai) is red and ripe, it signifies that the mullet is fat and the best time for eating." - Erub Erwer Meta Arts Centre, Erub Erwer Meta Torres Strait Islander Corporation.
